RE: DBE FORMS SUBMISSION – 08-0E5514

Dear CalTrans Office Engineer, MS43,

Siemens Industry is submitting the attached DBE forms for review for the above referenced solicitation. As noted in the special provisions these documents were to be received by your office within four working days of bid opening. With the past holiday noted, this submission was due November 16, 2017 by 4PM. Unfortunately and due to no fault of our own, we have been unable to submit this required information to your office.

After review of all special provisions, the DBE forms themselves, and phone call to the Office of Business & Economic Opportunity (OBE), we were still not provided with a location to submit these documents. We were finally directed to speak to the Contract Awards Branch Chief. Upon a brief conversation we were informed that we also should have reviewed the Contractors Corner on CalTrans website for the information to submit these forms to. We were then instructed to send the completed forms to the address above along with a cover letter explaining the situation.

Siemens Industry did consult the Contractors Corner after our conversation with the Contract Awards Branch Chief as well. A review of this website provides an address that is different than listed above adding more confusion to the entire process. Furthermore, the documentation for Electronic Bidding, Revised 07/2016 also fails to mention the submission process in any detail or a location to submit the required forms to.

Based on the confusion and lack of current documentation assisting bidders in supplying this information; Siemens Industry, Inc. is respectfully requesting the Department accept our submission and continue to award 08-0E5514 to Siemens Industry, Inc.

Should you have any questions, please do not hesitate to contact us. We look forward to building a wonderful long-term relationship with the California Department of Transportation

Sincerely,

Christopher J. Romeo
Director of Sales, Traffic Services; U.S.
